

Ultherapy's Results Simulation Tool **Terms and Conditions**

The Ultherapy® treatment and this Website are intended for patients 18 years of age and over. This simulation tool is free of charge, requires submission of personal information, and does not require any individual to commit to further treatment or consultation with a licensed medical professional.

By submitting my photo(s) to this Website, I acknowledge and understand that the electronic imaging simulation system is only a rough approximation of actual post-procedure appearances. I further understand that the newly generated image(s) showing the result of an alteration of my image(s) is purely for entertainment purposes, and while they can be used for illustration and discussion with an Ultherapy® treatment provider, they do not constitute any medical advice or consultation on their own. I understand the outcome of any Ultherapy® procedure is directly related to my individual healing characteristics. Because of the significant differences in how living tissue heals, there may be little similarity between the electronic image(s) and my final treatment result.

I certify my understanding that there is no warranty of any kind, expressed or implied, provided by either Ulthera, Inc. or the physician reviewing my photo(s) as to my final appearance by the use of these electronically altered image(s). I understand that no information provided on this website nor image(s) generated electronically may be construed as medical care or medical advice and is not a replacement for medical care and consultation given by a physician or trained medical personnel. I understand and acknowledge that in order to receive a full understanding of the Ultherapy® procedure, treatment areas, and to be fully informed of my risks, I have been advised to schedule an in-person consultation with a licensed medical professional having experience with the Ulthera® System and performing Ultherapy® treatments.
